

Many Languages - One Methodology

A professional learning programme for teachers wishing to develop knowledge and skills in languages curriculum.

This professional learning program, held over 7 days in total throughout the year, is designed to support teachers as they come to grips with using an outcomes focus in their classrooms and as they work with their students to develop communicative skills and intercultural competence.

This programme provides a rich blend of theory and practice that is designed to have immediate practical applications within a classroom context. Quality Languages teaching and learning within a sustainable and supportive context is the essence of this program. This programme will be particularly advantageous for these teachers who have had limited opportunities for professional development within the area of language curriculum.
