What is Language Perfect?

Language Perfect is an online vocabulary revision tool that is fully customisable to your curriculum. By combining competition with personalised feedback Language Perfect makes vocabulary learning fun.

“I have NEVER seen ALL my kids so actively engaged in a class and when one considers that they are actually doing boring old vocab practice – WOW!!!!!!”

Lynne Rockliff, Western Australia

What are the benefits of Language Perfect?

Allows the student to learn at their own pace, to hear the spoken language (native speakers), and to make connections between the phonology and graphology in words.

Language Perfect boosts motivation and confidence for learners in their speaking and writing skills.

Competition! As students learn words they earn points and compete against class mates. Progress can be tracked through the Teachers Control Panel.

Language Perfect develops a sound self-directed approach to learning and a flexible attitude to the learning of other languages.

Language Perfect enables teachers to set vocabulary learning for homework. This means teachers can spend their valuable class time teaching their curriculum and applying vocabulary in context.

“Your program has helped so many and I can still see the results. In class today I overheard, ‘How do you know that word?’ The answer of ‘Language Perfect’ came from a smiling student”

Myra Francis, Westlake Girls High School, New Zealand

Who uses Language Perfect?

Over 40 million questions were answered on Language Perfect in 2009, or more than 1 question every second of the year! Hundreds of schools throughout Australia and New Zealand have successfully implemented Language Perfect into their curriculum.

Which languages are offered?

French, German, Spanish, Japanese, Indonesian, Italian and Maori.

How much does it cost?

Annual licenses are just **\$10** (incl.GST) per student. Students studying multiple languages pay **once**. It is **free** for teachers. Licenses last until 1 February 2011.
